## Experience

2008-Present, Web & Digital Interactive Multimedia Design/Development  
Constantly expanding upon developed skill from MMDP & Advanced Interactive Media Specialist programs at Fanshawe College, has resulted in the creation of REGNR8 Designs. REGNR8.com aims to provide clients with fresh new designs for web sites, interactive media, logo, and much more

2011- SMART Board Application Using The 6 Thinking Hats Methodology  
A member of a hand picked team of IMS Post Grads working under IMS program coordinator Robert Haaf, to create an application fit for SMART Board/iPad hardware for Fanshawe College. This projects was designed as a Flex4/AS3.0 application that operated in conjunction with a web based component for data input via the iPad.

2011- Competetion of thesis web application: CosmoMentum  
This web application was designed to be a tool for individuals seeking new members for open source projects using popular social networking APIs. USing the site, new members would be able to advertise their projects in order to gain interest and members to participate.

2011- Bridges Conference 2010 Site  
Designed/Developed a web site for Bridges Canada in a team of 3 to allow conference material from Bridges 2010 Conference to be watched online.

2010- The Insurance Exchange Promotional Site  
Designed/Developed a promotional web page for John Stirling of The Insurance Exchange which included video capturing/editing as well as incorporating After Effects to create a video fitting of the script and concept presented for digital creation.

2002-Present, Computer Maintenance/Repair & Data Recovery Services  
Computer jobs which include removing spyware, viruses, and malware. Cleaning/ Installing hardware, partitioning hard drives, backing up data, installing software as well as operating systems etc. through ForestCityComputers.com

2009-2010, Interactive Design Collaboration  
Expanding upon Actionsript 3.0 knowledge learned through MMDP, a collaborative effort with a peers resulted in flash games such as 'Midway Maddness' (target shooter) and 'Izumi Outdoors: Fishing Edition' (alpha build of a social networking game created for TecVana/Izumi Outdoors/Fanshawe College to educate and promote fishing in rural towns)

2008, Fleming College – Applied Project  
Created learning material based on 4 months of RFID applied research in order to provide a localized reference for RFID and other Radio Frequency technolgy for future CSI students in which the Bell Academic Award was won

## Technical Skills

Digital Interactive Design

Design in Adobe CS  
3D/2D Animation  
3D Modeling  
ActionScript 3.0,  
FLEX4,  
Javascript/AJAX  
HTML, CSS,  
OOPHP, MySQL,  
PERL

Comp. Security & Investigations

Advanced Digital-  
Investigations  
Data Recovery  
Penetration Testing  
Intrusion Detection  
Computer &  
Network Security  
Risk Management  
RFID Knowledge  
CCNA 4  
Experienced  
Windows /Linux  
CMD&GUI  
Server services/  
Debian Linux

## Soft Skills

Proven Honesty and  
Dependability  
Time Management  
Conflict Resolution  
Strategy  
Collaborative Skills  
Development of a  
Co-operative  
Working Style  
Leadership skills  
Creativity  
Thoroughness  
of Execution  
Thought &  
Application
